

Sales performance report

Revenue, volume, regional, category, and channel performance in one read.

EXECUTIVE SNAPSHOT

TOTAL REVENUE

\$3.46M

TOTAL ORDERS

7,552

AVERAGE ORDER

\$1.73K

Revenue is strong, with Computers and Marketplace carrying the largest reported shares. The management question is concentration: where to protect momentum, and where to broaden the base.

Revenue is strong, but concentrated

Total revenue is **\$3.46M** across **7,552** orders and **2,000** units sold. The **\$1.73K** average order indicates meaningful transaction value, but the portfolio remains highly dependent on one category.

CATEGORY CONCENTRATION

\$2.06M

Computers are the dominant product category.

PORTFOLIO READ

Strong headline performance

The next management move is to protect the computer category while building more contribution around it.

Central and North lead regional revenue

Central leads at **\$802.60K**, followed by North at **\$787.11K**. West is lowest at **\$580.09K**; South is **\$627.69K** and East is **\$655.28K**.

Revenue by region · Central and North lead; West trails.

Regional spread is material.

The gap between the leading Central region and West is **\$222.51K**, making West the clearest regional investigation point.

Computers drive the category mix

Computers generate **\$2.06M**, far ahead of Monitors at **\$737.41K**. The remaining categories contribute smaller reported amounts.

Revenue by product category · Computers dominate the mix, while smaller categories remain underdeveloped.

NEXT-LARGEST CATEGORY

\$737.41K

Monitors

Attach strategies should strengthen monitors, storage, networking, and accessories around the computer-led core.

Marketplace is the largest reported channel

Marketplace leads the readable channel values at **\$1.11M**, followed by Corporate Sales at **\$906.98K** and Online at **\$429.02K**.

Revenue by sales channel · Marketplace leads the readable channel values.

Validate before reallocating.

The Retail Store value is not legible in the source image and is excluded from comparisons. Retail Store performance requires source validation.

Management implications

Protect what is working while widening the revenue base and improving the quality of the next review.

01 Protect the computer category

Reduce reliance through stronger attach strategies for monitors, storage, networking, and accessories.

02 Investigate West

Start with assortment, pipeline, and channel coverage to understand the gap versus Central and North.

03 Use Marketplace momentum

Keep Marketplace as a growth lever while validating Retail Store performance before reallocating investment.

04 Improve the reporting source

Make monthly trend and Retail Store values readable in future reviews.

Decision frame: protect the core, broaden contribution, validate the gaps.
